## **THE END CAP: Five Recommended New Releases**

May 11th, 2012 | File Under: [Featured](#), [The End Cap](#) | [Leave A Comment](#)

### **Atom™, *Wintereisse* (Raster-Noton)**

Don't let Uwe Schmidt's pencil-thin mustache or fun-loving Señor Coconut alias fool you into thinking that his latest Atom™ album is a warm and fuzzy affair. Well, not in the emotional sense at least; sonically speaking, *Wintereisse* adheres to Raster-Noton's reputation as a home for strangely human, glitchy but gorgeous electronic music. In this case, Schmidt penned 17 pieces that were inspired by his own photographs. As symphonic as micro machines get.
